Mori-no-Eki Tarumizu

Kominkanoyado Tarumizu

Tarumizu's fishing port is the number one producer of Amberjack in Japan. Prime Amberjack "Umi no Ohkan" is fed special feed such as Shochu lees and green tea leaves. You enjoy the fresh taste of this delicious fish and good flavor.

The yellowtail of Tarumizu are raised and farmed in Kinko Bay where the water is deep and the temperature is stable. This variety of fish is characterized by its small head and plump flesh.

Gourmet

Sakurajima Biyuton (pork) is fed on natural hot spring mineral water, and that makes its meat shiny, great texture and a sweet flavor.

Tarumizu is famous for its delicious mineral water and is home to 10 mineral-water companies. You have so many varieties to choose from.

Marine Leisure

Michi-no-Eki Tarumizu 1 is a roadside rest area where you can behold the view of magnificent Mt Sakurajima and the beautiful sea of Kagoshima Bay right in front of you. Also, you can enjoy shopping for local specialties and relaxing in a hot spring.

Michi-no-Eki Tarumizu Hamabira 2 is a new roadside rest area located along the coast where you can see Mt Sakurajima and Mt Kaimon from across Kagoshima Bay. You can also enjoy the cafes and restaurants, plus shopping and marine leisure too.

Mori-no-Eki (Forest Station) Tarumizu 3 is a rest area in the forest at Sarugajo Gorge, situated only 10 minutes from the ferry port. You can stay at the cottages or go camping. You spend a great time amongst nature doing activities such as canyoning, shower-climbing, fishing and camp-cooking etc.

ALL YEAR											

★ Canyoning

Wearing a wet suit, life-jacket and helmet, enjoy and relax, surrendering to the flow of a beautiful river only 10 minutes from the Tarumizu ferry port.

★ Shower Climbing

Enjoy natural water slides or swimming and playing in the river among large granite boulders.

★ Sports Chanbara

Chanbara is a fun sport, freely conceived regardless of age, gender or ability-level. Everyone can truly enjoy Chanbara!

★ Amberjack Feeding

Tarumizu is the largest producer of greater amberjack in Japan. Learn about feeding, catching, cleaning the fish, and of course enjoy eating it too. And, if you're lucky, on this tour you may see wild dolphins out on the bay.

★ Azalea Garden

There are more than 100,000 azaleas from about a hundred varieties in this park. The best season is spring, when the entire hillside turns a gorgeous pink.

★ Thousand Ginkos Garden

A local couple have been cultivating and taking care of 1,200 ginkgo trees on their land since 1978. The best time to see the splendor is early December. The autumn leaves color the whole mountain gold.

★ Climbing & Trekking

The Osumi Peninsula where Tarumizu is located, is covered with seven mountain peaks over 1,000 meters high. You also enjoy hiking the lower mountain trails taking only 4 or 5 hours.

★ Dressing-up in Yukata

How about walking around the forest in a Japanese yukata? At the same time, you can experience making Japanese sushi, and learn some calligraphy too.

★ Marine Leisure

Here you can enjoy a variety of marine sports, such as SUP, canoeing, wake board, banana boat and mirage eclipse.

★ Making Baumkuchen

The baumkuchen you make yourself is spread on a bamboo tube and baked slowly over an open fire. This dish will warm your body and heart.

★ Satsuma Buttons

Satsuma buttons were produced near the end of Edo period. As a part of Japonism culture, they were very valuable collectibles in the West. Today, artisans make company emblems, brooches, pendants, tie pins etc.

★ Flute Making

You can make your own flute very simply.

★ Fishing

You can enjoy fishing on Kinko Bay. Have the fish you caught and served up for dinner.

★ Trout Fishing

You can do trout fishing at Mori no Eki (Forrest station). You can grill and eat the delicious rainbow trout you caught on the spot.

★ Sweet-potato Harvest

Experience harvesting sweet potatoes. You can enjoy barbecue of chicken and home-grown vegetables for lunch, and take home sweet potatoes as a souvenir.
